TITLE X
TRADE IN GOODS

Article 1

Objective

Mercosur and the European Union agree to establish a Free Trade Area over a transitional period starting from the entry into force of this Agreement, in accordance with the provisions of the Agreement and in conformity with Article XXIV of the GATT 1994.

Except as otherwise provided in this Agreement, the provisions of this Title shall apply to trade in goods of a Party.

CHAPTER I

[NAME TO BE DEFINED]

Section 1 - Common provisions
Article 2

Each Party shall accord national treatment to the goods of the other Party in accordance with Article III of GATT 1994, including its interpretative notes. To this end, Article III of GATT 1994 and its interpretative notes, are incorporated into and made part of this agreement.

Article 3

1. For purposes of this Chapter, "originating" means qualifying under the rules of origin set out in Annex X (Rules of Origin).
2. Except as otherwise provided for in this Agreement, each Party shall reduce and/or eliminate its customs duties on originating goods in accordance with the Schedules set out in Annex…. (hereinafter referred to as “Schedules”).
3. A customs duty includes any duty or charge of any kind imposed on or in connection with the importation of a good, including any form of surtax or surcharge imposed on or in connection with such importation,¹ but does not include any:

a) internal taxes or other internal charges imposed consistently with Article III of GATT 1994

b) Antidumping or countervailing duties applied in accordance with Articles VI and XVI of GATT 1994 and the WTO Agreement on the Implementation of Article VI of GATT 1994 and the WTO Agreement on Subsidies and Countervailing Measures in conformity with the Chapter (Trade Remedies).

c) measures applied in accordance with Article XIX of GATT 1994 and with the WTO agreement on Safeguards, or with other safeguard measures of the Agreement.

d) measures authorised by the WTO Dispute Settlement Body or under the Dispute Settlement provisions of this Agreement.

e) fee or other charge, imposed consistently with Article VIII of GATT 1994.

¹ This includes ad valorem import duties, agricultural components, additional duties on sugar content, additional duties on flour content, specific duties, mixed duties, seasonal duties, additional duties from entry price systems, among other measures of equivalent effect.

Limited

4. The classification of goods in trade between Mercosur and the European Union shall be that set out in each Party’s respective tariff regimes in conformity with the Harmonised Commodity Description and Coding System. A Party may create a new tariff line as long as the customs duty applicable to the corresponding products under the new tariff line to the other Party is equal to or lower than the original tariff line, according to its Schedule, and that the agreed tariff concession remains unchanged. The respective Parties Schedule shall indicate which HS version each Party has used.

5. For each good, the base rate of customs duties on imports, to which the successive reductions are to be applied under paragraph 2, shall be [MCS: effectively applied by the Parties (option 1: on the date xx/xx/xxxx) (option 2: on the date of entry into force of the Agreement), including the unilateral concession granted to Paraguay] [EU: that specified in the Schedules].

7. Except as otherwise provided for in this Agreement, no new customs duties shall be introduced, nor shall those already applied according to the Schedules be increased, in trade of originating goods between Mercosur and the European Union as from the date of entry into force of this Agreement. For greater certainty, a Party may raise a customs duty to the level set out in Annex [X] (Tariff Elimination Schedule) for the respective year following a unilateral reduction.

[EU: 8. If a Party lowers a MFN applied rate to a level below the base rate in relation to a particular tariff line, the MFN applied rate shall be deemed to replace the base rate in the Schedule, for as long as the MFN applied rate is lower than the base rate, for the purpose of the calculation of the preferential rate for that particular tariff line. In this regard, the Party shall [MCS2: , for as long as the tariff elimination period lasts], effect the tariff reduction on the MFN applied rate to calculate the applicable rate, maintaining at all times the relative margin of preference. The relative margin of preference for any given tariff line corresponds to the difference between the base rate set out in the Schedule and the applied duty rate for that tariff line in accordance with the Schedule divided by that base rate, expressed in percentage terms.]

---

\(^2\) MCS could accept the EU proposal if this language was accepted.
9. Each Party may accelerate its tariff elimination schedule, or otherwise improve the conditions of market access, if its general economic situation and the situation of the economic sector concerned so permit. In addition, beginning three years after the entry into force of this Agreement, on the request of either Party, the XXX Committee shall consult to consider measures providing for improved market access. An agreement by the Parties in the XXX Committee on any preferential treatment on a good originating in the other Party shall supersede any duty rate or staging category determined in the respective Schedule for that good.

Article 4

[MCS: For the purposes of this Agreement and in respect of used goods, refurbished, remanufactured or goods that have gone through similar modifications, including those identified or not identified as such in the Harmonized System, the Parties shall be governed by their national legislation. In any event the provisions of this Agreement shall not apply to those goods.]

[EU: Article XXX

Remanufactured goods

1. The Parties shall accord to remanufactured goods the same treatment as that provided to new like goods. A Party may require specific labelling of remanufactured goods in order to prevent deception of consumers.

2. For greater certainty, Article [X] (Prohibition of quantitative restrictions) applies to prohibition and restrictions on remanufactured goods.

3. In accordance with its obligations under this Agreement and the WTO Agreements, a Party may require that remanufactured goods:

(a) be identified as such for distribution or sale in its territory; and

(b) meet all applicable technical requirements that apply to equivalent goods in new condition.

4. If a Party adopts or maintains prohibitions or restrictions on used goods, it shall not apply those measures to remanufactured goods.]
[**EU**: 5. This Article applies after a transitional period of no longer than three years from the entry into force of this Agreement. The Trade Committee may decide to apply this Article before the end of the transitional period.]

**Definition of a remanufactured good (to be moved to a definition section):**

A remanufactured good means a good in HS chapters 84, 85, 87, 90 and 9402 that:

a) is entirely or partially comprised of parts obtained from goods that have been used beforehand;

b) has similar performance and working conditions compared to the equivalent good in new condition; and

c) is given the same warranty as the equivalent good in new condition.]

**Article [X]**

**Goods re-entered after Repair**

1. For the purposes of this Article, repair means any processing operation undertaken on goods to remedy operating defects or material damage and entailing the re-establishment of goods to their original function or to ensure their compliance with technical requirements for their use, without which the goods could no longer be used in the normal way for the purposes for which they were intended. Repair of goods includes restoration and maintenance. It shall not include an operation or process that either:

   (b) destroys the essential characteristics of goods or creates new or commercially different goods,

   (c) transforms the unfinished goods into finished goods, or

   (d) is used to improve the technical performance of goods.

[**EU**: 2. A Party shall not apply customs duty to goods defined in paragraph 1, regardless of their origin, that re-enter its customs territory after those goods have been temporarily exported from its customs territory to the customs territory of the other Party for repair, regardless of whether such repair could be performed in the customs territory of the Party from which the goods were exported for repair.]
3. Paragraph 2 does not apply to a goods imported in bond, into free trade zones, or zones of similar status, that are exported for repair and are not re-imported in bond, into free trade zones, or zones of similar status.

4. A Party shall not apply customs duty to goods, regardless of their origin, imported temporarily from the customs territory of the other Party for repair.

[MCS: Article 5]

New Proposal – MCS

After the entry into force of the Agreement, MERCOSUR may adopt exceptional measures during the transitional period concerning the establishment of infant industries, or sectors undergoing restructuring or facing serious difficulties.

The reference to the establishment of infant industries shall apply not only to the establishment of a new industry, but also to the establishment of a new branch of production in an existing industry and to the substantial expansion of an existing industry supplying a relatively small proportion of domestic demand, according to the definition established in the Notes and Supplementary Provisions of Article XVIII of the GATT.

These exceptional measures may be taken by MERCOSUR in the form of increased customs duties, derogating from the provision of Article (2) paragraphs (xx) and Article (3).

Customs duties derived from these measures applied on imports originating in the Community may not exceed the level of the applied MFN customs duty. The total value of imports of goods which are subject to these measures may not exceed 15% of total imports originating in the Community during the last year for which statistics are available.

MERCOSUR shall inform the Association Council of any exceptional measures it intends to take, and, at the request of the Community, consultations shall be held in the Association Council on such measures before they are applied in order to reach a satisfactory solution. If no agreement on the proposed measures has been reached within 30 days of such notification, MERCOSUR may take the appropriate measures.

When taking such measures, MERCOSUR shall provide the Association Council with a schedule for the elimination of the customs duties introduced under this Article. This schedule shall provide for the phasing out of these duties in a period not exceeding 8 years,
starting from the following year after their introduction, at equal annual rates. MERCOSUR may accelerate this tariff elimination schedule if the situation of the economic sector concerned so permits. MERCOSUR shall not adopt such measures after the end of the transitional period.]

CHAPTER II

NON-TARIFF MEASURES

(The title of this chapter or the final placement of the provisions contained in it, will be agreed upon at a later stage.)

Section 1 – general provisions

Article 6

Fees and Other Charges on Imports and Exports

[EU: Each Party shall ensure, in accordance with Article VIII of GATT 1994, including its Notes and Supplementary Provisions that all fees and other charges of whatever character other than import and export duties imposed on or in connection with importation or exportation shall be limited in amount to the approximate cost of services rendered, which shall not be calculated on an ad valorem basis, and shall not represent an indirect protection for domestic products or a taxation of imports or exports for fiscal purposes.]

2. Each Party may impose charges or recover costs only where specific services are rendered, in particular the following:

(a) attendance, where requested, by customs staff outside official office hours or at premises other than customs premises;

(b) analyses or expert reports on goods and postal fees for the return of goods to an applicant, particularly in respect of decisions relating to binding information or the provision of information concerning the application of the customs legislation;

(c) the examination or sampling of goods for verification purposes, or the destruction of goods, where costs other than the cost of using customs staff are involved;
(d) exceptional control measures, where these are necessary due to the nature of the goods or to a potential risk.

[EU: 3. No Party shall require consular transactions, including related fees and charges, in connection with the importation of goods from the other Party.

4. Each Party shall publish a list of the fees and charges it imposes in connection with importation or exportation.]

MERCOSUR proposal for Art. 14. Fees and Charges

[MCS: 1. The disciplines on fees and other charges on imports and exports shall apply to all fees and charges other than import and export duties and other than taxes within the purview of Article III of GATT 1994 imposed by Members on or in connection with the importation or exportation of goods.

2. Fees and charges for customs processing:
   (i) shall be limited in amount to the approximate cost of the services rendered on or in connection with the specific import or export operation in question;
   (ii) are not required to be linked to a specific import or export operation provided they are levied for services that are closely connected to the customs processing of goods.
   (iii) shall be published in accordance with Article 10 and
   (iv) shall be reviewed periodically with a view to reducing their number and diversity, where practicable.

3. No Party shall introduce consular transaction fees or any equivalent fees or charges, in connection with the importation or exportation of goods originating under this Agreement with respect to those currently applied by the Parties.]

Article 9

Import and export licensing procedures

1. The Parties shall ensure that all import and export licensing procedures are neutral in application, and administered in a fair, equitable, non-discriminatory and transparent manner.
2. The Parties shall only adopt or maintain licensing procedures as a condition for importation into its territory or exportation from its territory to the other Party when other appropriate procedures to achieve an administrative purpose are not reasonably available.

3. The Parties shall not adopt or maintain non-automatic import or export licensing procedures unless necessary to implement a measure that is consistent with this Agreement. Any Party adopting non-automatic licensing procedures shall indicate clearly the measure being implemented through such licensing procedure.

4. The Parties shall introduce and administer any licensing procedures in accordance with Articles 1 to 3 of the WTO Import Licensing Agreement (hereinafter referred to as "Import Licensing Agreement"). To this end, Articles 1 to 3 of the Import Licensing Agreement are incorporated into and made part of this Agreement. The Parties shall apply those provisions, mutatis mutandis, for any licensing procedures for exports to the other Party.

5. Any Party introducing licensing procedures or changes in these procedures shall make the corresponding information available on an official governmental website on the Internet. This information shall be accessible, whenever practicable, 21 days prior to the effective date of the requirement but in all events not later than such effective date. The information available on the Internet shall contain the data required under Article 5 of the WTO Import Licensing Agreement. The notification foreseen in Article 5 of the Import Licensing Agreement shall be carried out between the Parties with regard to licensing procedures for export.

6. Upon request of the other Party, each Party shall promptly provide any relevant information regarding any licensing procedures which the Party to which the request is addressed intends to adopt or has adopted or maintained, including the information indicated in paragraph 4.

---

3 For the purposes of this Article, "Non-automatic licensing procedures" is defined as licensing procedures where approval of the application is not granted for all legal and natural persons who fulfill the requirements of the Party concerned for engaging in import or export operations involving the goods subject to licensing procedures.
The Parties agree to create a mechanism to neutralise the distorting effects of the application of some domestic support measures on bi-regional trade.

1. Those agricultural products subject to product-specific distorting domestic support (product-specific AMS) and not fully covered by this Agreement shall benefit from the opening/expansion of preferential tariff quotas, according to the following criteria:
   - If the product-specific AMS for the last three years notified, represents between 1% and 5% of the Gross Value of Production (GVOP) of the product, a tariff quota equal to 1% of the domestic consumption of that product in the Party shall be opened or expanded.
   - If the product-specific AMS for the last three years notified, represents more than 5% of the GVOP of the product, a tariff quota equal to 2% of the domestic consumption of that product in the Party shall be opened or expanded.

2. Quotas shall be updated every three years, on the basis of the average AMS notified by the Parties to the WTO for the last 3 years.

3. The Party affected by the AMS shall provide the other Party with all the supporting data, including:
   - Product concerned (including HS heading);
   - Level of product-specific AMS, average for the last 3 years;
   - Estimated level of GVOP of the product, average for the last 3 years;
   - Tariff treatment of the product in the Agreement;
   - Tariff treatment requested based on the AMS/GVOP ratio (including estimated data of domestic consumption in the Party).

The Parties shall not maintain, introduce or re-introduce export subsidies or measures of equivalent effect on agricultural products.

For the purposes of this Article, the meaning of “export subsidies” will be the one set in Article 1 e) of the WTO Agreement on Agriculture.
